DECLARATION OF CONFORMITY

The declaration of materials concerns the following applications:

Application:

Material type:

Colors:

Material type Open Caps:

Resistance:

Range of temperature:

Compliance:

Caps for Bearing Housings

Polypropylene

white, blue, black

Ring: Stainless Steel, 1.4301, AISI 304 (X5CrNi18-10), Rubber: NBR 70

High chemical resistance

Min -35 C° to Max +90C°

EU: This product complies with the relevant requirements of Regulation **EC No.1935/2004** on materials and articles intended to come into contact with food, applicable to plastic raw materials. This product complies with the relevant requirements of Regulation 2023/2006/EC on good manufacturing practice (GMP) for materials and articles intended to come into contact with food, applicable to plastic raw materials.

Also complies with the relevant requirements of Regulation 10/2011/EC (PIM) as amended, on plastic materials and articles intended to come into contact with food, applicable to plastic raw materials. The monomers and additives used to manufacture this product are listed in the Union List of Authorized Substances of Regulation 10/2011/EC and subsequent amendments. This product contains one or more ingredients which are subject to a restriction, i.e. a specific migration limit (SML). The identity of substances with a restriction can be disclosed for testing purposes, upon special request and under maintaining secrecy.

Dual use additives may be used in the formulation of the above mentioned product. The identity of those substances can be disclosed upon special request and under maintaining secrecy.

Regulation 10/2011/EC specifies 10 mg/dm² as the maximum overall migration from finished plastic food contact articles. The migration should be measured using the actual foodstuff or the appropriate food simulants at the real time/temperature conditions of use, according to the rules specified in Regulation 10/2011/EC and subsequent amendments. It is the responsibility of the manufacturer of the finished plastic food contact article to check and confirm that the final article meets both the technical and regulatory requirements of the application. In addition, we remind you that the manufacturers of the finished food contact material or article must verify that the finished material or article, manufactured according to good manufacturing practices, does not modify the organoleptic properties of the food.

US: The base resin in this product meets the FDA requirements contained in the Code of Federal Regulations in 21 CFR 177.1520(a)(3)(i) and (c)3.1a. This product may contain adjuvant substances that may be safely used in polymers used for the manufacture of articles that come into direct contact with food. According to our information, these substances used in this product meet the requirements of their respective FDA regulations, FCNs, and 21 CFR 177.1520(b).

FDA: This product meets the FDA criteria in 21 CFR 177.1520 for food contact applications, excluding cooking, listed under conditions of use C through H in 21 CFR 176.170(c), Table(##) 2 and can be used in contact with all food types as listed in 21 CFR 176.170(c), Table(##) 1.
