CONVEYOR WEAR STRIPS - FOR SMOOTH MOVEMENT

MOVET FIX & MOVET SUPERFINISH

With us you will find durable and reliable sliding strips for smooth machine movement. With customized solutions made of high-quality materials, our conveyor wear strips guarantee optimum performance, safety and efficiency in various industrial applications.

PRODUCTS

BEARINGS AND BEARING UNITS

Movet bearings and bearing units are the perfect solution for your drive technology. Manufacturing from high-quality stainless steel or robust plastic ensures high load carrying capacity. With various designs, including flanged bearings, pillow block bearings and insert ball bearings, we offer the right bearing

for every need. High-quality ball bearings ensure smooth and efficient movement of your machinery and equipment. Our bearing units are extremely easy to install and require little maintenance. An extensive range of accessories makes MOVET your one-stop store for every bearing and bearing unit

GASKETS

Whether classic shaft seals, hygienic seals, or custom seals: Movet is your reliable partner for all sealing tasks. Our wide range includes seals that meet the highest demands for durability, robustness, and minimized maintenance. Shaft seals from Movet are reliably tight thanks to two sealing lips. Our

hygienic gaskets are developed in accordance with the 3-A hygiene standard and are easily visually recognizable thanks to their intense blue color. We would also be happy to develop special seals for you - according to drawings, samples or as a completely new development. Just contact us!

CUSTOM-MADE SEALS

DETECTABLE AND HYGIENICALLY SAFE

MOVET special seals can be adapted to all conditions and areas. Low and very high pressures are possible, e.g. in hydraulic systems or vacuum applications. MOVET supports you in your selection and focuses on technical solutions and economic considerations. Size, colour and material are tailored to your requirements, and we are happy to advise you!

STABLE & SAFE:
DISCOVER LEVELLING
FEET AT MOVET!

PRODUCTS

LEVELLING FEET

Our levelling feet enable the stable and safe installation of your machines. They are made of robust stainless steel, steel or high-quality plastic. Rely on height-adjustable models for easy and precise alignment of your machines or integrated damping functions that effectively reduce vibrations. With

certified machine feet, you can be sure that they meet the strict hygiene requirements in the food and pharmaceutical industries. With customized accessories - for example, hygienic pressure load cells or threaded covers - we offer you the right solution for every task.

FREEWHEELS AND BACKSTOPS

Freewheels, backstops and overrunning clutches from Tsubaki - that is technical experience combined with maximum efficiency. In our store you will find freewheels and backstops for use in demanding industrial applications. With torque capacities from 1 to over 5,000 Nm, we offer the right freewheel for every

application in your company. In close cooperation with Tsubaki, special solutions are created as needed for all requirements that we cannot cover with our extensive standard range. Bearing-mounted, non-bearing-mounted or centrifugal lift-off: You too can rely on the highest quality down to the smallest detail.

ROLLER CHAINS

Roller chains from Tsubaki are more than just a connecting element - they are the heart of your drive and transport solutions. As energy- and load-transmitting components, roller chains assume great technical importance. In our product range, you will find chains according to DIN 8187 and 8188 in a wide

variety of designs - from simplex to triplex, from hollow pins to roller chains specially developed for hygienic applications. We also offer special attachments in our assortment. As a long-standing partner of Tsubaki, we are happy to jointly realize special solutions for your individual needs.

MACHINE COMPONENTS

The DNA of our machine components consists of three ingredients: Durability, reliability and high performance. With our handles, closure systems, pipe caps, connection flanges, hinges or turn latches, you can add high-quality components with the highest fitting accuracy to your applications. With special de-

signs and the sealing of moving parts, we offer you solutions specially tailored to the needs of the most hygienically demanding environments - for hygiene down to the smallest screw. Uncompromising premium quality meets intelligent design: You too can put your trust in machine elements from MOVET!

INDUSTRIES

Our products are universally applicable. In our experience, thanks to the specific properties, our components have proven themselves especially for the following industries:

HYGIENIC AND FOOD TECHNOLOGY

BULK SOLIDS TECHNOLOGY

UNIT LOAD CONVEYORS

STEEL CONSTRUCTION

SOLUTIONS

STANDARD RANGE

Our extensive standard range is usually available directly from stock with the shortest delivery times. You too can rely on an excellent price-performance ratio and competent support from our experienced technical team, which is available at all times.

HYGIENIC COMPONENTS

MOVET hygienic components bring the plus in hygiene to your production. With optimized geometries, particularly smooth surfaces, and a visually detectable blue color scheme, we meet the high demands of the food or pharmaceutical industries with especially high-quality, hygienically optimized products that you can rely on day after day.

CUSTOM SOLUTIONS

If standard solutions cannot cover your needs, our experienced team is always at your side. We develop, design and manufacture special solutions in close customer dialog - this is how technical components are created that are adapted to your individual needs down to the smallest detail.

ABOUT US

For almost 30 years, the MOVET brand has stood for high-quality conveyor technology components. We find solutions that works - whether in special machine construction or for our industrial customers from numerous industries.

EXPERIENCED

We have years of experience in the industry and know exactly what our customers need. Trust in our expertise and let us achieve your goals together.

COMPETENT

Our employees are highly trained and always at the cutting edge of technology. With our know-how, we find a solution for every problem that perfectly suits you.

PERSONAL

With us, you as a customer are the center of attention. We take time for your individual concerns and advise you personally on site or by phone. Because this is the only way we can ensure that your requirements are met - 100%.

OUR TEAM - YOUR SUCCESS

We will be happy to answer any questions you may have about our products or provide personal advice for your new project. You can reach our technical team from Monday to Friday at the number below and of course at any time by e-mail.

You would like to discuss your project in person? No problem - we would be happy to get to know you and your company during a visit. We look forward to hearing from you and are sure that we will also convince you of our capabilities!
