

PHthalate/BPA DECLARATION

MOVET Phthalate/BPA

ABSENCE OF PHTHALATES AND BISPHENOL A (BPA)

Products: Conveyor belts, Multiflex chains, Plastic conveyor sprockets

We hereby confirm that phthalates and bisphenol A are not added to any of the above products, so that the following substances should not be contained: **Di-n-octyl phthalate** (DNOP), **diisononyl phthalate** (DINP), **di(2-ethylhexyl) phthalate** (DEHP), **diisodecyl phthalate** (DIDP), **dibutyl phthalate** (DBP), **diisopentyl phthalate** (DIPP), **butyl benzyl phthalate** (BBP) and **di(2-methoxyethyl) phthalate** (DMEP), **dipentyl phthalate** {DNPP}, **diisooctyl phthalate** (DIOP), **mono-n pentyl phthalate** (MPP).

However, certain phthalates are used as minor components of the catalytic systems for the production of polypropylene resins (**PP** and **PE-PLUS**). Therefore, traces of **diisobutyl phthalate** (DIBP), **dibutyl phthalate** (DBP, as an impurity of DIBP) and/or **diethyl phthalate** (DEP) may be present in some of our products as residues of catalyst modifiers. The maximum residue would not exceed 1 ppm, an extremely low value compared to the maximum value (1000 ppm) allowed for substances included in the list of substances of very high concern for authorisation (Regulation 1907/2006/EC - REACH). We would like to point out that DIBP and DEP are neither included in nor covered by European Decision 2004/781/EC. Please note that DIBP and DEP are neither included in nor targeted by the European Decision 2004/781/EC.

We also declare that, to the best of our knowledge, all polymers and ingredients used in the manufacture of our products do not contain any traces of **bisphenol A** (BPA).
